Projeto de Mobilidade

SETEMBRO 2019

LOCALIZAÇÃO E DIAGNÓSTICO

O projeto de requalificação da Avenida das Rendeiras busca criar oportunidades de convívio e contemplação em uma das paisagens mais marcantes da cidade de Florianópolis. Melhora as condições dos pedestres e ciclistas, através de ciclovia e passeios adequados, além de propor pequenas alterações viárias para aumentar a fluidez do trânsito. O projeto integra-se ao restante do bairro da Lagoa da Conceição, através do sistema ciclovitário, aumentando as possibilidades de acessibilidade da via.
